EXPERIENCE

CourseKey

FE Software Engineer · San Diego, CA · 09/18 - present

- Developed new features for the CourseKey web app on an agile team using React, Redux, Flow, and Jest.
- Decreased bundle size by 40% after leading platform audit and implementing webpack build optimizations, minification, code splitting, and refactoring to remove unnecessarily large packages.
- Increased global testing coverage by 25% in one year.
- Owned the development of our new attendance system, working with CTO to architect solution cross-platform.
- Awarded "Einstein of the Quarter" after independently ideating and building data analytics feature.
- Delivered multiple class location feature under tight 2 week deadline, ensuring retention of a high-value, at-risk client.
- Built and deployed releases through Jenkins.

Fullstack Academy

Mentor · Remote · 09/18 - present

- Mentored students in closure, prototypal inheritance, classes, and functional programming.
- Pair programmed and performed code reviews to ensure success throughout their software engineering careers.

Teaching Fellow · Chicago, IL · 06/18 - 09/18

- Oversaw student projects as technical mentor and project manager.
- Performed weekly code reviews with students.
- Led weekly white board algorithm training
- Interviewed and evaluated prospective students in pair programming sessions for admissions.

Zing How Design

Lead Product Designer · Chicago, IL · 10/16 - 01/18

- Designed, prototyped, and produced soft good designs for influencer marketing.
- Launched an in-house production operation, leading a team of four under tight deadlines.
- Oversaw whole production line, from ideation to QC.
